Who is Richard Lee... (1940-2004)

From 1973 to 1983 Richard Lee studied Tiffany lamps at the studio of Paul Christ, Tiffany's first apprentice. After that Lee founded his own company, Tiffany Lee Lamps Decoration GMBH, where he started producing his own original stained glass designs. His Tiffany inspired designs have been highly revered around the world.

About the Tiffany lamps: these lamps are made by Tiffany's method of wrapping copper tape around each piece of glass and then soldering them together.
